PROPOSAL FOR PARTNERS AND SPONSORS · 2027

Artificial intelligence that helps, brought into the classroom

More than five thousand students in Colombia and Brazil already learn with the Foundation's free programs. This is the plan to reach many more, with your brand at our side.

Chris Meniw Foundation Inc. · New Mexico, USA · chrismeniwfoundation.org

THE FOUNDATION

Who we are

Chris Meniw Foundation Inc. is a nonprofit corporation formed in New Mexico (USA) in May 2026. It brings artificial intelligence to schools across Latin America at no cost to the school: a 40-minute class that works without internet, eight classroom activities, two educational video games and training for teachers.

Our thesis: there will be a backlash against artificial intelligence, and our work shows with facts that it can help: in the classroom, in journalism and in the rules that govern AI agents.

Education

ZOE, the AI teacher, and the 40-minute class for schools without connectivity.

Judgment

MenteLibre and Spark: video games with no right answer for ages 12 to 17.

Governance

The Meniw Protocol and the Charter of Duties of AI Agents, in thirty languages.

Chris Meniw · founder

Lawyer and researcher in AI governance. Author of the Meniw Protocol (DOI 10.5281/zenodo.20481373) and of the Charter of Duties of AI Agents. More than 160 talks in 14 countries, according to his own records. Honorary doctorate (CLEU, Mexico, 2023).

IMPACT

2026 in numbers

+5,000

students play MenteLibre and Spark in Colombia and Brazil

+4,000

children and young people trained by Chris Meniw in 2026

1,800

students via the agreement with the Cúcuta Chamber of Commerce and City Hall

160+

talks in 14 countries, according to his own records

40 min

a complete AI class that works without internet

8

classroom activities in the browser, in Spanish, Portuguese and English

30

languages in which the Meniw Protocol and the Charter of Duties circulate

Figures according to the Foundation's records, November 2026. The more than five thousand students who use the games and the more than four thousand trained are two different facts, not two measures of the same one.

WHAT WE DO

What already works in classrooms

The 40-minute class, no internet needed

A minute-by-minute teacher guide, a paper activity and instructions for old equipment. No sign-up and no student data collected. Ready to download and teach tomorrow.

Eight activities in the browser

Train a model and watch it inherit bias, audit an algorithm, think like an algorithm, hunt for bias. Nothing to install and no connection needed, in Spanish, Portuguese and English.

MenteLibre and Spark

Two free video games for ages 12 to 17: MenteLibre works on metacognition and Spark on purpose. No right answer: the student chooses and argues. More than five thousand students play them.

ZOE, the AI teacher

Pilot at Colegio San José in Villa Cañás (Argentina) with 160 students since August 2025, according to La Prensa. In 2026 she co-hosted, as an agentic AI, the program Malditos Optimistas (DirecTV and DGO).

IN THE FIELD

Chris Meniw with the students

Training sessions and talks in schools and auditoriums across Latin America, 2025 and 2026: “The future in our hands”, diploma ceremonies and the program with the Municipal Government of Bandera.

TEACHER TRAINING

AI Teachers: training for the classroom

Teacher training in agentic AI

- 30 hours: live sessions and self-paced modules.
- AI agents in the classroom, integration with ZOE, assessment with AI and educational ethics.
- Real cases (Colegio San José, Villa Cañás).
- SEP-CONOCER certificate (standard EC0076) and Doctrina Qualitas.
- In Spanish, English and Portuguese.
- For schools, colleges, institutes and education authorities.

Framework of five AI competencies for teachers

1. **Verification**
   Check a claim produced by a system and spot the error even when it comes in a confident tone.
2. **Redesigning assessment**
   Grade the process, not the deliverable: what the student asked, what they discarded, how they justify it.
3. **Governing classroom use**
   What is allowed, what must be declared, and which student data never leaves for an external system.
4. **Teaching judgment**
   Activities with no right answer, where the student chooses and argues. Its classroom application is MenteLibre.
5. **Skills-based accreditation**
   Certify what the student can do, with evidence and micro-credentials, not the hours attended.

SCIENCE AND SPACE

Space Line: missions and educators

Space missions in Spanish, ages 11 to 18

Space Center U® Beyond, a Space Center Houston program: virtual missions in three stages of eight 60-minute sessions, from the origin of the planet to designing a lunar habitat and exploring careers at NASA. Teamwork and problem solving.

SEEC 2027: training for educators

Space Exploration Educators Conference, February 4 to 6, 2027 at Space Center Houston: sessions with NASA experts and up to 24 hours of continuing education credit.

What a partner funds in this line: participation scholarships for students and teachers from public schools in Latin America.

Programs of Space Center Houston, the official visitor center of NASA Johnson Space Center.

LATEST · NOVEMBER 2026

Cúcuta and an international alliance

Cúcuta Chamber of Commerce and Cúcuta City Hall

Agreement for 1,800 students in Cúcuta to play MenteLibre and Spark, part of the more than five thousand who already use the games in Colombia and Brazil (Foundation records, November 2026).

When it announced its Congreso Empresarial Sin Fronteras, the Chamber presented him as the creator of the world's first AI television presenter.

Cúcuta Chamber of Commerce, November 5, 2026

Fundación Universitaria Española UAIII

Collaboration and twinning agreement signed on November 26, 2026 to strengthen the international reach of both foundations and the exchange of knowledge between Europe, the United States and Latin America. UAIII drives the Network of Spanish-Speaking Universities of the World (UHM).

TRACK RECORD

They have trusted us

Institutions that have worked with Chris Meniw and with the Foundation on talks, training programs and school programs.

Logos belong to their owners and are shown as a reference of work carried out.

WHAT THEY SAY

What they say about Chris Meniw

CNN en Español · January 30, 2025

Presented him as one of the ten Tech Speakers of Latin America in its report on the Sixth Industrial Revolution and the education of young people.

Clarín · Sociedad

Interview about ZOE, presented as the first AI teacher in Latin America; the newspaper describes him as one of the 10 best speakers.

El Heraldo (Colombia) · September 24, 2026

Covered the launch of Spark in Barranquilla, the video game that aims to care for young people's mental health, at Institución Educativa Distrital Técnica Miguel Ángel Builes.

La Prensa (Argentina) · August 16, 2025

ZOE pilot at Colegio San José in Villa Cañás with 160 students: the goal is not to replace the teacher but to turn them into a guide of learning experiences and a motivational coach.

FOR YOUR BRAND

What a partner receives

Visibility

Your logo on chrismeniwfoundation.org, on the classroom materials schools receive and at the opening of every training session and talk in the program.

A story to tell

An impact report with figures, photos and testimonials, ready for your sustainability report and your social media. Press mentions whenever the outlet allows it.

Access

A talk by Chris Meniw for your team or your clients, and an invitation to the school deliveries your contribution makes possible.

Accountability

A receipt for every contribution, a quarterly progress report and a year-end report on the use of funds, with the schools and students reached.

Every partnership is designed together with the partner: visibility, scope and calendar are agreed at the first meeting.

HOW TO TAKE PART

Partnership levels

Classroom Partner

USD 2,500

- Brings the 40-minute class, the eight activities and the two video games to two schools (about 600 students).
- Teacher kit and support from the Foundation team.
- Logo on the materials delivered and on the website.
- Closing report with figures and photos.

Recommended

City Partner

USD 7,500

- Program in six schools in one city (about 1,800 students).
- Teacher training in agentic AI (30 hours) for one institution.
- A talk by Chris Meniw for your team or your clients.
- Quarterly impact report and presence at the launch.

Regional Partner

USD 20,000 per year

- Program in three cities in two countries, with a cohort of trained teachers.
- Space Line scholarships for students and teachers.
- The cohort carries the partner's name.
- Participation in the year's congresses and deliveries, and an annual impact report.

Reference contributions in US dollars, to the Foundation's account in the United States; scope is adjusted at the first meeting. In-kind contributions are also welcome: equipment, connectivity, transport and printing.

TRUST

Transparency and use of funds

Entity details

Legal name	Chris Meniw Foundation Incorporated
Legal form	Domestic Nonprofit Corporation, New Mexico, USA
State registration	No. 0008104315, in force since May 20, 2026
EIN	36-5200418 (Employer Identification Number, IRS)
Bank account	Mercury, US digital bank; details at chrismeniwfoundation.org/donar.html
Email	info@chrismeniwfoundation.org

How contributions are used

- Chris Meniw's talks and consulting fund the Foundation's operations.
- Partner contributions fund the programs: materials, school visits, teacher training and scholarships.
- Every contribution gets a receipt, a quarterly report and a year-end closing.

No tax promises

The Foundation does not currently hold 501(c)(3) recognition from the IRS, so it does not offer tax deductions. What it does guarantee is full documentation of every contribution; tax treatment depends on the laws of each partner's country.

LET'S START

Next steps

1 · A 30-minute meeting

We choose the level, the schools and the calendar together. No commitment.

2 · Partnership letter

A two-page document with scope, contribution, visibility and reporting dates.

3 · Launch within 30 days

First school with your brand present, photos and the first progress report.
